

Natural Seal A-1200

Product Description

Natural Seal is a natural look, non-toxic, penetrating, non-topical sealer that seals and waterproofs most cement, cinder-block and sandstone surfaces. Leaves all surfaces looking exactly the same as before the application. **Do not apply A-1200 Natural Seal over A-1000 Concrete Stain or surfaces that are non pourous.**

Coverage Rate

Natural Seal will cover approximately 100 to 300 square feet per gallon, depending upon the surface applied to and application procedure followed.

Primary Uses, Characteristics and Advantages

Natural Seal will not alter the color, texture or any other physical characteristic of the surface it is applied to. Retards pitting and dusting. Natural Seal leaves a clear natural finish. Impervious to the penetration of grease, oil, acids, and salts. Natural Seal enables easier removal of snow and ice, and also easy clean up of spills or dirt with mild soap and water. Creates an easy cleanable surface.

Application

For Horizontal Surfaces

Apply Americrete, Inc. A-1200 Natural Seal at a rate of 100 to 150 square feet with a broom, completely saturating the surface.

If a second coat is desired apply while the first coat **is wet**.

For Vertical Surfaces

Apply Americrete, Inc. A-1200 Natural Seal at a rate of 100 to 150 square feet with a low pressure sprayer, completely saturating the surface.

If a second coat is desired apply while the first coat **is wet**.

Caution

Do not apply to glass, glazed surfaces or aluminum as etching will occur. In case of accidental contact, rinse with water. Do not apply to previously sealed asphalt. This product is not meant to fill or seal visible cracks.
