

Americrete^{Inc}

MANUFACTURER OF DECORATIVE OVERLAYS & SEALERS

Texture and Concrete Color Seal A-1100

Product Description

Texture and Concrete Color Seal is a single component, thermal plastic polymer resin paint. Formulated for use in high traffic areas. It is water and petroleum resistant. Available in eighteen colors, and custom colors are available upon request. Texture and Concrete Color Seal provides a solid uniform finish for pool decks, patios and for our waterproofing systems.

Coverage Rate

Texture and Concrete Color Seal will receive approximately 150 to 200 square feet per gallon, depending upon the surface applied to and application procedure followed.

Primary Uses, Characteristics and Advantages

Texture and Concrete Color Seal resists wear, is stain resistant, water repellent, non-hazardous, and petroleum resistant. This product comes in 13 standard colors, and custom colors are available upon request. Texture and Concrete Color Seal resists UV rays, waterproofs, and is environmentally friendly.

Typical Applications

Texture and Concrete Color Seal is the finish resin coat for Americrete spec. A-9000, and A-16,000. It is also used on pool decks, interior and exterior applications, striping paint, decorative surfaces, asphalt sealant, balconies, and patio decks. Contact your Americrete representative for other applications. **Environmentally Friendly.**
