

**Americrete**<sup>Inc</sup>  
MANUFACTURER OF DECORATIVE OVERLAYS & SEALERS  
**Primer & Admix**  
**A-375**

#### **Product Description**

Americrete A-375 Primer & Admix is a priming and bonding agent. A-375 Primer & Admix provides superior adhesion and flexibility. A-375 Primer & Admix bonds to virtually any type of surface. A-375 Primer & Admix is a water based, non-hazardous primer. No mixing is required.

#### **Characteristics**

Environmentally safe, non-reemulsifiable water borne proprietary co-polymer. Superior adhesive and co-adhesive bonding strength. Reduces moisture vapor emissions through slabs. A-375 Primer & Admix is a multi-purpose product that will create a permanent bond between sound substrates and Portland cement based underlayments. Protect Admix from freezing until use.

#### **Coverage Rate**

A-375 will achieve approximately 200-300 square feet per gallon over flex mesh.

#### **Primary Uses**

Floor leveling/smoothing, concrete patching and repair, spalled/deteriorated conditions, horizontal concrete/asphalt renovation, pedestrian and traffic surfaces, renovation of Gypsum underlayments, slip/abrasion resistant surfaces, reduction of moisture vapor emissions, asbestos tile encapsulation, recreational surfaces (repair and smoothing), highways, bridges, sidewalks, curbs, waterproofing, parking structures, warehouses, pool decks, driveways, loading docks and ramps and masonry walls.

#### **Application**

See manufacturer specification A-80,000 or A-85,000 for complete installation instructions.

#### **Important Notice to Purchaser**

Please see Important Notice to Purchaser in the front of this Specification Book.
