

Spray Rock Bonder A-5200

Product Description

A-5200 Spray Rock Bonder is a proprietary bonding agent and provides superior adhesion for Americrete Spray Rock A-PS.

Primary Uses

A-5200 must only be used with A-PS Spray Rock.

Coverage Rate

A-5200 should be mixed with A-PS Spray Rock as follows: For the larger rock, mix 1 part Bonder to 2 parts Spray Rock and for smaller rock, mix 1 part Bonder to 1 ½ parts Spray Rock per volume.

Application

A-5200 Spray Rock Bonder is mixed with A-PS Spray Rock and should be applied with a hopper gun or spray machine. The A-5200 and A-PS mixture can be applied to walls or floors including, but not limited to, stucco, block, brick, concrete, drywall and plywood.
