

Americrete^{Inc}
MANUFACTURER OF DECORATIVE OVERLAYS & SEALERS

Self Leveling - White A-675

Product Description

A-675 E-Z Level is a white, cementitious product mixed with a dry proprietary co-polymer; only water is needed to mix this product. E-Z Level is a fast drying, high strength cementitious topping that can be applied at 1/4" to 1/2" in thickness and can be cut to achieve an architectural design and then stained and sealed. A-675 is an ideal underlayment for tile, carpet, etc.

Coverage Rate

Coverage will vary due to the application; however, at a 1/4" in depth one 50 lb bag will cover approximately 25 square feet per bag.

Primary Use, Characteristics and Advantages

Levels any floor with little effort. All ingredients are specially blended. Only water is added. Minimal preparation is required. A-675 E-Z Level can be used as an underlayment for tile, carpet or wood. A-675 can be cut, stained and sealed to create an architectural floor design. A-675 can be used indoors.

Application

Note: It is mandatory to apply A-7225, a 1:1 100% solids epoxy as a primer, then broadcast 30 mesh silica sand into A-7225 while it is still wet. See specification A-80,000 for complete installation instructions.

Important Notice to Purchaser
