MANUFACTURER OF DECORATIVE OVERLAYS & SEALERS

Underlayment -Gray A-680

Product Description

A-680 Underlayment is a gray, cementitious product mixed with a dry proprietary co-polymer; only water is needed to mix this product. A-680 Underlayment is a fast drying, high strength cementitious underlayment. A-680 is an ideal underlayment for tile, carpet, etc. Accelerators can be added for faster drying time.

Coverage Rate

Coverage will vary due to the application; however, at a 1/4" in depth will cover approximately 25 square feet per bag.

Primary Uses

Levels any floor with little effort. All ingredients are specially blended. Only water is added. Minimal preparation is required.

Application

A-680 Underlayment can be used as an underlayment for tile, carpet or wood. A-680 Underlayment can be cut, stained and sealed to create an architectural floor design. A-680 can be used indoors. **Note: It is mandatory to apply A-7225, a 1:1 100% solids epoxy as a primer, then broadcast 30 mesh silica sand into A-7225 while it is still wet.**

See specification A-80,000 for complete installation instructions.
