

Americrete^{Inc}
MANUFACTURER OF DECORATIVE OVERLAYS & SEALERS
Color Pacs
A-710

Product Description

Americrete A-710 Color Pacs are used to add color to any of Americrete's cementitious products. They are sold in 4 ounce tubes and come in a case pack of 16 tubes per color per case. A-710 is available in any of the A-1000 Concrete Stain standard colors.

Coverage Rate

A-710 Color Pacs are to be used one tube per 50 pound bag for light colors and two pacs per 50 pound bag for medium colors and 3 pacs per 50 pound bag for dark cement colors.

Primary Uses

A-710 Color Pacs can be used in any of Americrete's Cements but are used primarily in A-700 Stamp Crete and A-601 Resurfacer, which comes in white as well as gray.

Application

A-710 Color Pacs should be added to the mixing water prior to adding cement so there is no chance of color clumps or streaks. Once A-710 is blended with water thoroughly, add cement and continue to mix as usual.

Important Notice to Purchaser
