

Gray Cement Accelerator A-975

Product Description

Americrete's A-975 Gray Cement Accelerator is a cementitious product used to speed up the drying time for Americrete cement products. A-975 is gray so it should be used for Americrete's gray cements (A-900, A-500, A-600). A-975 comes in a 10 pound box or a 50 pound bucket.

Coverage Rate

Add 1 – 2 pounds of A-975 Gray Cement Accelerator to each 50 pound bag of Americrete's overlay cements.

Primary Uses

A-975 should be used in very cold climates, indoors or in shaded areas. A-975's primary use is an additive for cementitious products. A-975 will help shorten the drying time of cementitious products.

Application

A-975 should be added after the water and cement are thoroughly blended. A-975 will perform best by using a ½" drill with a mixing paddle attachment by heating up the product from high speed mixing.
