

Americrete Inc
MANUFACTURER OF DECORATIVE OVERLAYS & SEALERS
Asphalt Seal
AR-1000
Black

Product Description

AR-1000 Asphalt Seal is an environmentally safe product. It is a water base acrylic cross linked with oil resins to create a penetrating sealer for asphalt.

Coverage Rate

Asphalt Seal will achieve approximately 200 to 300 square feet per gallon depending upon the surface that the AR-1000 is being applied over.

Primary Uses, Characteristics and Advantages

AR-1000 is primarily used for sealing of asphalt. It is black in color and penetrates deep into the substrate. AR-1000 is a breathable, durable semi-gloss sealer. It is water base which allows easy clean up and application. It is also resistant to automotive fluids.

Application

AR-1000 can be applied by sprayer, roller or by broom.
